USER INTERFACE AND DESIGN

COMPARISON OF UI DESIGN BETWEEN TWO FIGMA CREATION

Bad Comments

1. **Overuse of Bright Yellow Color**
   The background color is too bright, which may cause eye strain and reduce readability.
2. **Poor Text Contrast**
   Some black text on yellow lacks enough contrast, making it difficult to read for long durations.
3. **Typography Inconsistency**
   Different font styles are used without a clear hierarchy, which reduces visual clarity.

4. **Unclear Call-to-Action Button**
   The “Get started” button blends with the background and does not stand out enough.
5. **Unbalanced Layout**
   The left side looks heavier due to large text, while the right side feels crowded.
6. **Confusing Decorative Shapes**
   Triangular and abstract shapes do not add functional value and may distract users.
7. **Statistics Are Unexplained**
   Numbers like *113k, 274k, 179k* are shown without labels, making them unclear.
8. **Social Media Icons Placement**
   Icons at the bottom corner are too small and may be missed by users.
9. **Lack of White Space**
   The design feels congested, reducing overall cleanliness and professionalism.
10. **Accessibility Issues**
    The color scheme may not be suitable for users with color-vision deficiencies.

Good Comments

1. Bold and Eye-Catching Color Scheme

The bright yellow background instantly grabs attention and creates a strong visual impact.

2. Clear Brand Message

The text “We are digital studio” clearly communicates the purpose of the brand.

3. Strong Visual Hierarchy

Large headings and highlighted keywords guide the user’s eyes naturally across the design.

4. Attractive Typography Style

The creative font choice gives a modern and artistic feel suitable for a digital studio.

5. Well-Defined Call-to-Action

The “Get started” button is clearly visible and encourages user interaction.

6. Creative Use of Shapes

Geometric shapes add uniqueness and make the layout visually engaging.

7. Informative Content Structure

Numbered points (01, 02, 03) clearly explain services in an organized way.

8. Social Media Integration

Social media icons improve connectivity and support brand engagement.

9. Good Balance of Text and Graphics

The design combines visuals and text effectively without overcrowding.

10. Modern and Professional Look

Overall, the design feels contemporary, creative, and suitable for a digital agency website.
